Subject: For tomorrow's call

Hi All,

I understand the point of tomorrow's call is to discuss whether the BDCP is on track for having sufficient information in the EIS to support Corps regulatory decisions under CWA 404.

FYI the statements below are from the preliminary administrative DEIS.

"A Section 404(b)(1) evaluation will be included with the project's Final EIS/EIR pursuant to the CWA, to provide required information on the potential effects of project activities regarding water quality and to provide rationale in support of identifying the LEDPA. The Draft EIR/EIS will be reviewed by concerned members of the public and stakeholders while given the opportunity to provide comments on project alternatives and documentation."

P. 8-108
